

You think He's big, He's so much bigger
You think He's strong, He's so much stronger
You think He's wise, He's so much wiser
God of heaven and earth

His reach is far, there's nothing farther
Yet He's so close, no one is closer
You think He's able, He's more than able
To meet our every need

Chorus

He's a big God, He's a great big God
He holds the stars, the earth and sea
And He can hear the prayers of you and me

He's a big God, He's a great big God
He spoke and made the galaxies
So it's to His great name we shout and sing

Mountain builder, ocean filler,
Sunset painter, God, our healer
Planet maker, dream fulfiller
God of heaven and earth

And though He reigns as King of glory
He knows our names, our every story
And even now He's here to meet us
God of heaven and earth

Bridge

Indescribable, Incomprehensible
Uncontainable and unchangeable
So big, so great, so wonderful
God of heaven and earth
